

Countertop Electric Noodle Cooker With Automatic Lifting System

FEATURES:

- Space-efficient with Excellent Performance
Countertop auto lift-up noodle cooker takes very little space in kitchen, providing more space-efficient possibilities in managing the kitchen.

- Noodle Basket Auto Lift-up
4 pre-set cooking programs control the noodle cooking time precisely so as to keep the consistency and food safety of noodles.

- Double Display Window for Time and Temperature
You can set up four different kind of cooking time. The unit also comes with low water alert and will switch off automatically for safety reason.

- Tapping Control Ensures Easy Operation
Perfect for busy and rush hour, lower down the risk of mal operation.
- Automatic steam cover plate, safe and conserve your energy, easy to clean, conform to food hygiene and safety standards
